

# Rajneesh Yadav

## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with expertise in JavaScript and the MERN stack. Collaborative team player experienced in designing and developing efficient server-side APIs using Node.js and Express.js. Proficient in creating seamless integration between frontend and backend components using React.js. Strong problem-solving abilities and attention to detail. Excellent communication and collaboration skills. Proactive and self-motivated individual eager to contribute to a technology-driven firm.

### PROJECTS

#### 1. Fitness | |

##### JavaScript | React | Material UI | HTML | CSS

- Developed a body exercise app with over a thousand exercises
- Implemented a simple navigation bar and slider on the landing page
- Created a category section for filtering exercises
- Implemented search functionality with proper error handling
- Designed exercise information page with related videos and similar exercises
- Worked independently on this project

#### 2. Shop Kart | |

##### React | Redux | CSS | Chakra-ui

- Developed ShopKart, an online shopping application facilitating users to conveniently browse and purchase products.
- Implemented user registration, product browsing, and cart functionality.
- Executed order placement and CRUD operations for seamless user experience.
- Utilized a tech stack including React, Redux, CSS, GitHub, ChakraUI, and Json Server.
- Successfully completed the project within a tight timeframe of 5 days.

#### 3. Weather App | |

##### React | CSS3 | Weather API

- Developed WeatherNow, an engaging web application for real-time weather updates.
- Designed an intuitive user interface highlighting the current temperature prominently for quick accessibility.
- Integrated the OpenWeather API to provide accurate and up-to-date weather forecasts.
- Utilized React.js for a responsive and interactive user experience.
